Prediction League 2021/22 ⚽ 🧙 🔮

A fun, prediction-based game built by Adam. Kind of like Fantasy Football but for the league table.

How It Works (in brief)

- ❖ Sign up to play the **Premier League** game at **https://prem.footyga.me** (PIN = **PREM202122**)

- ❖ Submit your first league table prediction

- ❖ Accrue "penalty points" throughout the season for each **incorrect position** – examples...

  - ➢ Place Brentford 🐝 in 20th + Brentford are 18th 🔺 = **2** **penalty points**

  - ➢ Place Wolves 🐺 in 5th + Wolves are 10th 🔻 = **5** **penalty points**

  - ➢ Place Palace 🦅 in 14th + Palace are 14th = **NO PENALTY POINTS!** ✅

- ❖ Points add up throughout **Game Weeks** just like in Fantasy Football.

  - ➢ Premier League has 38 Game Weeks

  - ➢ You'll get an email at the end of each GW to tell you how you're doing

- ❖ **Change your prediction** throughout the season

  - ➢ Optionally swap the position of **2 teams** every Game Week

  - ➢ Helps your game if you reckoned Norwich would go down but they're heading for Europe by Christmas...

- ❖ Player with the **fewest** overall penalty points at the end of the season wins the kitty!

- ❖ Entry is £10.00, which includes:

  - ➢ £5.00 to the winner's kitty

  - ➢ £2.50 to **The Liz Clarke-Saul Fund** - pioneering research into adamantinoma, supported by the Bone Cancer Research Trust. Liz is a GB Paracycling Squad bronze medalist who sadly passed away last year, leaving an incredible legacy that we are honoured to support in any way we can.

  - ➢ £2.50 to **Forest Holme Hospice** - a vital organisation who provide life-enhancing support to our local communities in Poole, Wimborne and the Isle of Purbeck.

- ❖ Live league table data is consumed every 15 mins from football-data.org - a reliable, developer-friendly API whose free tier helps to keep this project's running costs as low as possible. Please show Daniel (maintainer) some love!

- ❖ Entries are open now until **Friday 13 August at 8pm** (when Brentford vs Arsenal kicks off)

That's pretty much it... There's an FAQ on the site too - otherwise if you have any other Qs or issues, please get in touch using the details below.

Enjoy! 😁😁😁
