

Group Health Cash Plan

A Health Cash Plan is designed to help your employees to take a preventative approach to their health. The plans encourage regular visits to health professionals, ranging from routine check-ups through to treatment to maintain their health. And when things do go wrong, there is support with those unexpected problems as well.

Employees will book and pay for the treatment themselves, at a time convenient to them. They can then make a claim online by uploading a copy of their receipt. A payment will then be made from the plan directly to their bank account.

Broad range of treatment

Employees can claim for treatment such as:
Dental, eye tests, glasses, seeing a chiropractor or osteopath, seeing a chiropodist or podiatrist, health assessments, private GP and much more...

Choose what level of cover your employees have

The employer will have the ability to choose the level of cover employees have. Often there are several levels to choose from depending on your budget.

Company or employee funded

The scheme can be paid for entirely by the employer or it can be set up on a voluntary basis. On a voluntary basis, the employee will cover the cost of their policy each month through payroll.

Suitable for SMEs and larger companies

Insurers offer a range of products which are suitable for both small and large companies. Schemes can range from two members to thousands.
