

THE GUARDIAN

by  nmcn

Advanced Mobile
Security System

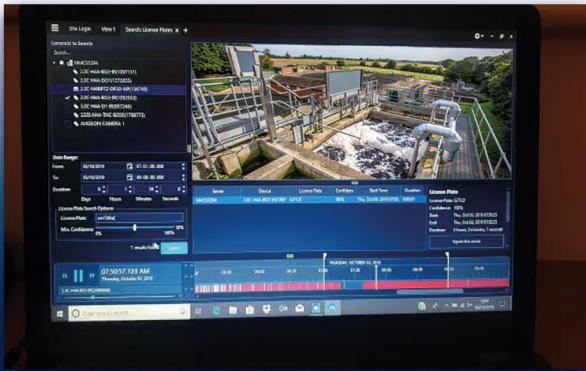

THE SYSTEM

The **Guardian by nmcn** is a robust mobile security solution which enhances site protection, providing a visible deterrent to would-be intruders. A versatile trailer mounted capability, which can be equipped with various camera technologies. The armoured base provides protection for the network and other technical equipment from both tampering and the elements.

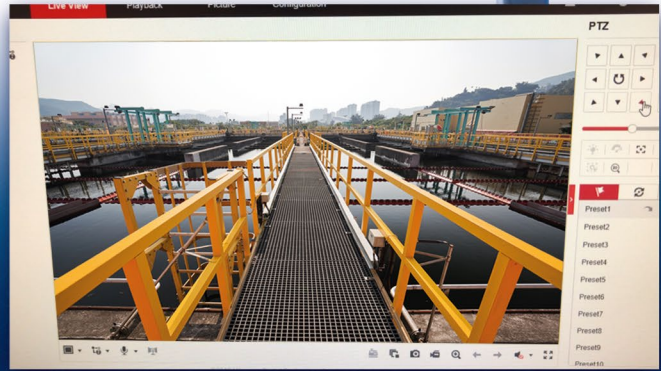

The Guardian is a highly adaptable security solution, with additional custom options offering multiple camera platform solutions, ideal for remote and long term site support.
