Uncertain readings: Margin date of first dated entry: only '6th Feb.' is visible at the cropped edge; probably '26th Feb.' since the registers were requisitioned on the 11th inst.; 'March' at the cropped margin: initial 'M' is lost; 'I test' at the start of the manager's note could be 'Itest'; Signature 'S. Boutter': the surname reading is likely but not certain; 'General Education Committee': might possibly be 'County'; 'Reading' (line end, cut off) is read from 'Readin...'

Uncertain readings: Margin day numbers are cut off at the left edge of the scan. Only 'March' and 'April' and the ditto marks can be read, so no exact ISO dates were given.; The margin before 'School reassembled' looks like a day number with a superscript (possibly '19th'; Easter Sunday 1909 was 11 April) but it can't be read.; 'G. E. C.' (General Education Committee); the OCR read 'G.E.L.'; 'Bd. of Edn' is written with a superscript 'n'.; The '27' and '3' in the OCR come from the facing page and are not part of this page.

Uncertain readings: Margin dates are cut off at the left edge: the April day, the May day ending in 'd', and the day ending in 'th' before the jug entry cannot be read.; '4th' margin date probably reads 14th May; the first digit is cut off.; '25th' for the Whitsuntide closure: 25 May 1909 was a Tuesday, so it may be 28th (Friday). The digit looks like 5.; 'Blaney's': the OCR read 'Blancy's'; I took the letter as 'e'.; 'Edna L. Haines' is written run together as 'EdnaL. Haines'.; 'falling off in' is written as one run-together word on the page.; The first entry has no visible margin date and may belong under a date on the previous page.

" Sewing Mistress suffering from sore throat, unable to attend. Girls did home needle work and practice under the guidance of Miss A. Leslie an ex Scholar.

Uncertain readings: '904.' at top left could be the page number, or a year cut off at the edge (1904/1909). The medical inspection by the School Medical Officer points to 1908 or later, so the year has been left as 0 and the ISO dates left blank; The month of the entries from the 29th to the 23rd is not written. 'Dec' appears only in the margin beside the Dora Lottie Dean entry; 'W H Dolman' – the initials are faint; 'E L White' – could be 'E G White'; 'Dean' – OCR gave 'Dear'; '8' at the right edge is bleed-through or the facing page, not part of this page

Uncertain readings: Day of the first margin date can't be read; only 'th' before 'Dec.' is visible, so the first entry has no ISO date; Right-hand edge of the last entry is cut off in the scan; letters in square brackets (ha[s], th[e], suppl[ied], th[e]) are filled in, and 'County C...' is probably 'County Council' and probably carries on to the next page; 'Mifs J. Uncertain readings: Left margin is cut off in the photograph, so all the day numbers are lost; only the endings (t, th, d) and the months Jan./Feb. can be read. The ISO date fields are left blank for that reason.; No page number is visible. The '95' faintly visible at the top is show-through from the facing page.; 'afternoon' runs off the right edge (afterno...).; Punctuation after 'Devizes' and 'very ill' looks like a colon but could be a semicolon.; The last line ('Sewing Mistress still sick.') is in lighter ink and may have been added later.; 'Miss' is written with a long s (Mi■s).
