1. General

1.1. The CFD Crypto Trading Services provided under these supplemental CFD Crypto Trading Terms apply with respect to trades which relate to CFDs in Cryptocurrencies.

1.2 **Cryptocurrency is a virtual cryptographically encrypted digital currency not issued or backed by a central bank or government. Cryptocurrencies are traded on non-regulated decentralized digital exchanges and their respective prices are determined by demand and supply and further depend on the internal rules of the applicable digital exchange. Please note that since such digital exchanges are not supervised by any regulatory authority, the rules for establishing the respective Cryptocurrencies prices may vary at the discretion of the applicable digital exchange at any time and without notice. Accordingly, the value of Cryptocurrencies is extremely volatile. Therefore, and due to among others, sudden adverse price movements of the respective Cryptocurrencies, trading CFDs in Cryptocurrencies involves significantly higher risk of loss of the invested amounts.**

3. Trading

3.1. All Orders placed by you shall be executed by the Company itself, i.e., the Company shall be the counterparty in each Transaction against you.

3.2. You acknowledge and agree that each Transaction conducted on the Trading Platform, is comprised of first an offer by you to us to complete a Transaction (whether such offer is to open a Position or close

an Open Position) at a certain price quoted on the Trading Platform, and our subsequent acceptance of your offer. An Offer will be deemed to have been completed only when your offer has been received and accepted by us. Our acceptance of an offer will be evidenced by our confirmation of its terms to you and its completion. You may request to cancel or amend a Transaction at any time prior to our completing such a Transaction.

3.3. We reserve the right to void from the outset any Transaction containing or based on any Manifest Error. In the absence of our fraud or willful default, we will not be liable to you for any loss, cost, claim, demand or expense following any Manifest Error.

3.4. You acknowledge that all prices and Quotes shown on the Trading Platform are indicative only of actual trading prices in Normal Market Size and are subject to constant changes. The Company provides Quotes by taking into consideration the respective underlying Cryptocurrency price, but this does not mean that these Quotes are within any specific percentage of the underlying Cryptocurrency price. To this end, you specifically acknowledge that the Trading Platform is independent of any exchange for the relevant underlying Cryptocurrencies and we are under no obligation to quote a particular price or follow the trading rules consistent with such exchange for the relevant underlying Cryptocurrencies. You further acknowledge that the triggering of your Order is linked to the prices quoted on the Trading Platform, not the prices quoted elsewhere on the exchange for the relevant underlying Cryptocurrencies and the Company does not guarantee that when executing an Order its price will be more favorable than one which might be available elsewhere. In determining whether the prices quoted on the Trading Platform reach or exceed the price accepted by us in a Transaction, we will be entitled (but not obliged), in our absolute discretion, to disregard any prices quoted on our Platform during any pre-market, post-market or intra-day auction periods in the exchange for the relevant underlying Cryptocurrencies, during any intra-day or other period of suspension in the exchange for the relevant underlying Cryptocurrencies, or during any other period that in our reasonable opinion may give rise to short-term price spikes or other distortions. Our prices may differ from the current prices on the exchange for the relevant underlying Cryptocurrencies and you acknowledge that a Transaction may be triggered even though:

(i) the exchange for the relevant underlying Cryptocurrencies never traded at the level of your Transaction; or

(ii) the exchange for the relevant underlying Cryptocurrencies did trade at the level of your Transaction but for such a short period that it would have been impractical to execute an equivalent transaction on the exchange for the relevant underlying Cryptocurrencies.

3.5. You shall comply with any restrictions that we notify to you from time to time with respect to your activities on the Trading Platform, including without limitation, the size of Transactions or other conditions that may apply to our Quote. You acknowledge that we may offer to and impose on each Client, in our sole discretion, different terms and restrictions with respect to their use of the Trading Platform.

3.6. If you place an Order on the Trading Platform, you agree that you are not dealing a recognized exchange. You further acknowledge that each Transaction is made for a specified number of units that constitute the underlying respective Cryptocurrency. You may only complete Transactions on the Trading Platform for the minimum number of units as set forth on the Trading Platform as the "Unit Amount", and

in multiples of such "Unit Amount" up until the maximum amount permitted by the Trading Platform. You acknowledge and agree that we may set, in our sole and absolute discretion, the "Unit Amount" for each underlying Cryptocurrency. Position opened by you, and any Transaction completed, will be binding on you notwithstanding that by opening the Position you may have exceeded any credit or other limit applicable to you or in respect of your dealings with us.

3.7. may request a Quote to open or close a Position for a particular underlying Cryptocurrency, at any time during the Trading Hours for such underlying Cryptocurrency. We will be under no obligation to but may, in our absolute discretion, provide a Quote and accept and act on your offer to open or close a Position for an underlying Cryptocurrency outside of the Trading Hours of such underlying Cryptocurrency. In some cases, Transactions may only be traded during the time when the relevant underlying Cryptocurrency is open. Trading Hours are displayed on the Trading Platform under the details link for each specific underlying Cryptocurrency. It is your responsibility to ensure you are aware of which underlying Cryptocurrency may be affected.

3.8. Without prejudice to any of our right hereunder, if, prior to the acceptance of your Order to open or close a Position, we become aware that any of the factors set out below herein have not been met, we reserve the right to reject your Order outright. If we have, nevertheless, already opened or closed a Position prior to becoming aware of such factor as reference below has not been met, we may, in our discretion, either treat such a Transaction as void from the outset or close the Open Position at our then prevailing price. However, we may, in our absolute discretion, allow you to open or, as the case may be, close the Open Position in which case you will be bound by the opening or closure of such Position, notwithstanding that the factors below herein were not satisfied.

The factors referred to above include the following:

- (i) the quote must be obtained via the Trading Platform or by such other means as we may from time to time notify you;
- (ii) your offer to open or close the Position must be given while the quote is still valid;
- (iii) the Quote must not contain a Manifest Error;
- (iv) when you offer to open a Position, the number of units in respect of which the Transaction is to be opened must be neither smaller than the minimum unit amount specified on the Trading Platform, as applicable, from time to time, nor greater than the amount permitted in accordance with the terms of this Agreement;
- (v) when you offer to close part but not all of an open Position both the part of the Position that you offer to close and the part that would remain open if we accepted your offer must not be smaller than the minimum unit amount specified on the Trading Platform;

3.10. All Transactions must be completed manually by you.

3.11. Company is under no obligation, unless otherwise agreed in the Terms and Conditions, to monitor or advise the Client on the status of any Transaction or to close out any Client's Open Positions. When the Company decides to do so, this will be done on a discretionary basis and will not be considered an undertaking of an obligation to continue. It is the Client's responsibility to be aware of his positions at all times.

3.12. Determination of any adjustment or amendment to the opening/closing price, size, value and/or quantity of the Cryptocurrency CFD Transaction (and/or level or size of any order) shall be at the Company's sole discretion and shall be conclusive and binding upon the Client. The Company shall inform the Client of any adjustment or amendment via its internal mail as soon as is reasonably practicable.

3.13. Benefits - Takeovers and Transformations (including events such as share consolidations/splits, mergers, takeovers, spinoffs, MBO's, de-listings, etc.). Depending on the circumstances of each event, our policy is to close out any customer open positions at the market price immediately prior to the event taking place. As a result of such event, if any underlying Cryptocurrency becomes subject to an adjustment as the result of a takeover or transformation action we shall determine the appropriate adjustment to be made to the contract price or contract quantity as we consider appropriate to account for the diluting or concentrating effect of the action. Such adjustment shall represent the economic equivalent of the rights and obligations of us and you immediately prior to the action.

(ii) the suspension or closure of any exchange for the relevant underlying Cryptocurrency or the occurrence, abandonment or failure of any relevant underlying Cryptocurrency on which we base, or to which we in any way relate, our quote, or the imposition of limits or special or unusual terms on the trading in any such market or on any such event;

(iii) the occurrence of an excessive movement in the level of any Transaction and/or exchange for the relevant underlying Cryptocurrency or our anticipation (acting reasonably) of the occurrence of such a movement;

(iv) any breakdown or failure of transmission, communication or computer facilities, interruption of power supply, or electronic or communications equipment failure; or

(v) the failure of any relevant supplier, Financial Institution, intermediate broker, agent or principal of ours, custodian, subcustodian, dealer, exchange for the relevant underlying Cryptocurrency, clearing house or regulatory or self-regulatory organization, for any reason, to perform its obligations.

4.2. If we determine that a Force Majeure Event exists, we may, in our absolute discretion, without notice and at any time, take one or more of the following steps:

(i) alter your Margin requirements; which may result in you requiring to provide additional Margin;

(ii) close all or any of your open Transactions at such closing prices as we reasonably believe to be appropriate;

(iv) alter the Trading Hours for a particular Transaction.

You agree that we will not be liable in any way to you or to any other person in the event of a Force Majeure Event, nor for our actions pursuant to paragraph 4, if we decide to take such action. 5. Fees

You will be subject to certain fees and commissions, as set forth in the website, as amended from time to time in accordance with the terms hereof. You agree to pay all applicable country, federal, state and local taxes.

6. Risks Related to Trading CFDs in Cryptocurrencies

6.1. Trading Cryptocurrencies CFDs is associated with high risk of losing your investment. **Cryptocurrencies are traded on non-regulated decentralized digital exchanges and their respective prices are determined by demand and supply and further depend on the internal rules of the applicable digital exchange. Such digital exchanges are not supervised by any regulatory authority, and therefore the rules for establishing the respective Cryptocurrencies prices may vary at the discretion of the applicable digital exchange at any time and without notice, resulting with high unpredictable volatile prices.**

6.2. Additionally, such digital exchanges may take actions for effectuating suspension or cessation of trading, as a result of which Company shall be required to accordingly suspend or cease the trading of CFDs in the applicable Cryptocurrencies, or the market data, including prices for the relevant Cryptocurrencies, will become unavailable to Company. **Consequently, your Open Positions might be adversely affected, in such a manner that might render your invested amounts worthless.**

6.3. **Where a trading on any digital exchange from which we derive price for the relevant Cryptocurrency has been disrupted (whether temporarily or permanently), your CFDs positions in such Cryptocurrencies will be priced at the last available price feeds for the relevant Cryptocurrency, and you might not be able to close or liquidate your position or withdraw any funds connected with such positions until the trading on the relevant digital exchange resumes. Upon resuming the trading, price might significantly fluctuate upwards or downwards and accordingly impact the value of your CFDs traded on the relevant Cryptocurrencies, which fluctuations might result with significant losses or gain. Please be informed that if trading is not resuming, then you will lose your entire investment made in such CFD's positions. You hereby acknowledge that you understand this particular risk and that you shall take it into your consideration when trading with CFDs in Cryptocurrencies and making decisions in relation thereto.**

6.4. Clients must impose due diligence and be careful when taking their trading decisions. It is the sole responsibility of the Client to learn and gain the knowledge and experience required to use the trading platform and whatever would be needed to trade properly. Clients must know that the risks of trading may sometimes overcome the whole capital invested. Clients must also know that knowledge and experience do not necessitate making profits since the markets can be affected by other unexpected factors that may lead to Clients' losses such as economic and/or political crises. In all cases, we will not be held liable for any trading decisions, violation of the applicable legal rules and/or regulations, and lack of knowledge and/or experience referred to the Client.
