## Why we love stripes at home

Stripes will stand the test of time; this reliable pattern will never date, and in classic formations, will continue to look comfortable and at home for years and years to come.

Add architectural detail to your space  
Stripes are perfect for small spaces, as they will trick the eye into thinking the space is bigger.

They are the perfect backdrop to your room design, and will mix and match with other prints well. Top tip! Try styling with checks or florals, for a pattern clash which will work in harmony.

An incredibly versatile design; stripes are ideal for any space, regardless of use, age, gender or theme.
