SRUC Training Services

Terms & Conditions

Course Fees
Payment is accepted by credit/debit card or by cheque.

The cost per person attending or for online access for two weeks is £35 per talk, £90 for three talks or £180 for all seven talks.

Pay online
Paying online is the quickest and easiest payment method. SRUC offers a secure online payment facility for debit or credit card payments. Online bookings at https://www.sruc.ac.uk/cpdforvets

Pay by post
Where it is not possible to use the online payment system, you can send payment in full by cheque. Please send your cheque payable to SRUC along with your completed registration form to the address provided on the booking form. Any bookings not accompanied by payment will be treated as provisional and confirmed bookings will take preference.

Substitutions
Substitutions are normally possible but may be restricted by certificating and awarding body requirements. Please contact the course administrator for details.

Cancellations & Refunds
In the event of any delegate being unable to attend on the booked date a 10% cancellation fee will be deducted from any refund. You must notify us in writing not less than 10 working days before the event. Where prior registration of candidates with an awarding body is required, any refund may reflect any non-returnable registration fees incurred by SRUC on your behalf.

Whilst SRUC reserves the right to amend any scheduled event or to cancel for whatever reason, we shall endeavour to run all courses as scheduled. Should we require to cancel or reschedule a course you will receive the option of alternative date(s) or a full refund. VAT is charged on eligible courses at 20%. All SRUC services are subject to the company’s standard terms and conditions.

**Valentina Busin**  
BVM  DVM DipCEBMH MRCVS MRCVS

Valentina graduated from the University of Turin, Italy, in 2007 and worked in mixed and farm animal practices for 3 years. She holds the Diploma for the European College of Small Ruminant Health Management and she has recently completed a PhD at the Morgridge Research Institute and Heriot-Watt University on sheep scab diagnostics. Since then she has been a University Clinician in Disease Investigation at the University of Glasgow, School of Veterinary Medicine.

**Tim Geraghty**  
BVM  Diploma  MRCVS

Tim Geraghty is Centre Manager of the SACCVS Aberdeen Disease Surveillance Centre. Tim qualified from Glasgow in 2005 and after completing a Masters in farm animal practice in Lanarkshire. He completed a 3-year residency training programme of the ECEHM at UCD Dublin, specialising in preventative medicine in seasonal dairy systems. He then returned to Glasgow as a clinical lecturer. Moving to Aberdeen in 2010 his current role is focused on early warning surveillance and he maintains an active interest in applied research in cattle production systems.

**Rhona Ley**  
BVM  Cert AVP  PGCertFS  MVM  MRCVS

Rhona graduated from the University of Glasgow in 2013 and worked in mixed animal practice at North of Scotland Veterinary Group in Inverness. She has completed the cattle certificate through Liverpool University and also undertook a Master’s degree through the University of Glasgow, looking at perinatal losses in beef herds in Orkney. Since finishing her Master’s degree Rhona is back working for Northvet and aims to continue her work on perinatal losses in beef herds.

**Sara Pedersen**  
BVSc  MSc  DipELTHM  PhD  MRCVS

Sara graduated from the RVC in 2005 and has worked exclusively with farm animals ever since. She holds the RCVS Certificate in Cattle Health and Production, Diploma in Bovine Reproduction and an RCVS-Recognised Specialist in calf health. As a mixed animal practitioner in Orkney, her work now focuses on young stock and perinatal loss in beef herds. Sara is an RCVS- Recognised Specialist in Calf Health and Production. In 2014 she left practice to focus solely on lameness, providing educational programmes and consultancy services to agri-businesses. At the start of 2017 she also embarked on a part-time PhD on calf foot trimming with the University of Nottingham.

**Simon Turner**  
BVSc  MRCVS

Simon is a researcher in SRUC with interest in understanding the causes and consequences of individual differences in animal breeding social behaviour and the response to human handling. Simon works closely with the animal breeding sector to understand the genetic basis to individual differences in behavioural responses. He works alongside SAC consultants to provide advice to beef producers on ways to modify or redesign handling systems.

**Eileen Wall**  
BSc  MSc  MRCVS  PhD  MVM  MRCVS

Eileen's professional activity has focused on livestock genetics and the development of breeding tools for use by the agricultural community. Eileen has made fundamental contributions in the delivery of broader breeding goals in UK dairy cattle, with international impacts through the dissemination of genetic improvement. Among her current research interests are climate change and livestock systems and development of sustainable and environmental breeding goals.
