What is Hairdressing?

Hairdressing is a service that is provided by highly trained and experienced practitioners. If you want a rewarding career that includes working with people and making them look and feel their very best then hairdressing is for you. If you have a creative talent with hair and the right work ethic hairdressing can take you around the world, behind the scenes at a fashion show or even on the small screen. There are so many opportunities that could come your way once you are qualified.
