## What is Nails?

Nails is a service that is provided by highly trained and experienced technicians. If you want a rewarding career that includes working with people and making them look and feel their very best then nails is for you. If you have a creative talent with nails and an interest in art and the right work ethic nails can take you around the world, behind the scenes at a fashion show or even on the small screen. There are so many opportunities that could come your way once you are qualified.
