

ARE YOU

COLLEGE READY?

What is Accounting?

Accounting is at the heart of every organisation! Accountants understand how the business is operating and what is happening within it. They make sure all transactions are legal by following up-to-date guidelines and use a variety of different skills. Recording financial transactions is essential, along with storing, sorting, retrieving and summarising information which is then presented into financial reports. It is one of the most important roles in a business as it keeps the company on track and records the flow of money.

Research to help you with your course next year

Watch one (or more!) of the documentaries below and think about how the issues link to Accounting: (Available on BBC iPlayer or www.youtube.com)
