Apprenticeships

Employer Guide

Building your future workforce

We are always looking out for new employers to help ensure our apprentices receive the best training to meet their future needs. Apprentices fill business skills gaps in a cost-effective way, which affords businesses more freedom to nurture their next generation of talent. This means ensuring we can match them with a suitable employer to train them to gain practical skills and a relevant qualification.

Our dedicated Business Development team provide all the support needed to help workforces plan their businesses for now and the future. They can also guide employers through the entire process including funding businesses may be eligible for.

What is an apprenticeship?

An apprenticeship is a job with off-the-job training. Sometimes in combination with classroom-based study, apprenticeships give learners their first step into a career or grow talent by upskilling current employees.

Modern apprenticeships offer the opportunity for people of any age to achieve academic and/or vocational qualifications alongside being trained in a chosen profession.

Wiltshire College & University Centre currently offers around 60 apprenticeships from Level 2 to Level 7 in more than 25 different occupational areas, lasting between 12 months and four years. Depending on the level and industry area, businesses of all sizes are able to recruit an apprentice or upskill an existing employee in the workplace.

Apprenticeships are a proven way of creating a more efficient and skilled workforce. They provide employers with the opportunity to attract new talent, offer progression and develop a motivated, skilled and qualified workforce which helps to improve economic productivity.

An apprenticeship addresses skills gaps and provides access to practical skills. In fact, with the increase of higher and degree level apprenticeships, businesses can now access higher level technical skills, vital to its performance and growth.

Employers and training providers could get £1,000 each for taking on an apprentice who is either:

- aged 16 to 18 years old, or
- aged 19 to 25 years old and has an education, health and care (EHC) plan or has been in the care of their local authority

For further information, click [here](#).

How do apprenticeships work?

The apprenticeship training is a combination of on and off-the-job training. This allows apprentices to work with a mentor to learn job-specific skills in the workplace.

Off-the-job training will be delivered in the workplace, via day or block release at one of WCUC campuses. Some of the training may also be delivered online.

What is a degree apprenticeship?

Higher and degree level apprenticeships combine work with study and may include a work-based, academic or combined qualification.

It may also be a professional qualification or a degree relevant to the chosen industry. Those apprenticeships are available at Levels 4 to 7.

Typically, higher apprentices study part-time at college, university or with a training provider and can take between one and five years to complete.

What are the different levels of apprenticeships?

Name	Level	Equivalent Educational Level	Progression Opportunities
Intermediate	2	5 GCSE passes at grades 9-4/A-C	Advanced apprenticeship Further employment
Advanced	3	2 A level passes	Higher apprenticeship Diploma degree level study Further employment
Higher and degree level	4, 5, 6 and 7	Foundation degree and above	Further degree study Further employment Apprenticeship

Cross Manufacturing

“We’ve introduced the apprenticeship programmes in various subject matters to plug that skills gap and it’s been very successful ensuring the business is sustainable and has a good future.”

Nick Lambert, Operations Manager at Cross Manufacturing discusses apprenticeships and how they benefit the business.

Apprenticeships make great business sense

90%

of apprentices stay on after completing an apprenticeship

86%

of employers said apprenticeships helped them develop skills relevant to their organisation

78%

of employers said apprenticeships helped them improve productivity

74%

of employers said apprenticeships helped them improve the quality of their product or service

Employer Responsibilities

By employing an apprentice, employers have certain requirements to meet:

- Employers are required to give their apprentice an induction into their role and provide on-the-job training.
- An apprenticeship agreement between the employer and the apprentice must be in place.
- They are responsible for issuing the apprentice's contract of employment and paying their wages which must cover release time for training.
- Employers must allow assessor workplace visits as required by the programme including 8-12 progress reviews with both the apprentice and their line manager.
- All apprentices must receive the same benefits as other employees.
- If the apprentice works under 30 hours per week or is on term time only contract the duration of the apprenticeship will be extended.
- Apprentices aged 16, 17, or in the first year of their apprenticeship must be paid the Apprenticeship National Minimum Wage of £5.28 per hour. All other apprentices are entitled to the following pay after 12 months:

Year	23+	21-22	18-20	Under 18	Apprentice
April 2023	£10.42	£10.18	£7.49	£5.28	£5.28

Off-the-job training

Off-the-job-training is a formal essential component of the apprenticeship and is a legal requirement for the employer to release their apprentice to complete their training. This can be delivered at the College or at their workplace.

Employers must ensure that off-the-job training (assignments, assessments and research directly linked to their apprenticeship programme and other activities listed below) amounts to at least 6 hours a week or up to 20% of the apprentice's contracted employment hours across the whole apprenticeship.

Relevant activities included in off-the-job training

Any off-the-job training undertaken by the apprentice must be directly relevant to the apprenticeship framework or standard and can include the following:

- The teaching of theory: lecturers, role playing, simulation exercises, online learning and manufacturer training.
- Practical training: shadowing, mentoring, industry visits and attendance at competitions.
- Learning support: time spent completing assessments and assignments.

Apprenticeship Levy

How does it work?

The Apprenticeship levy was introduced in 2017 to help fund millions of new apprenticeships. Large employers (with a payroll of over £3million per annum, regardless of whether they already employ apprentices or not) across all industries are required to contribute to the new Apprenticeship levy.

The levy is payable by employers whose payroll is £3million per annum or above at the rate of 0.5% of the payroll cost through PAYE alongside income Tax and National Insurance.

Transferring levy funds

Large employers that pay the apprenticeship levy can choose to transfer up to 25% of their levy funds each year to other businesses, to pay for their apprenticeship training and assessment. Transferring levy funds is a way of supporting other businesses by deciding which sectors, skills or local areas you'd like to fund. The receiving employer has to agree levy transfer with the sending employer and with the provider.

For more information visit:

gov.uk/guidance/pay-apprenticeship-levy

Non Levy Paying Businesses

How does it work?

Employers with less than 50 employees will not be required to contribute towards training costs for 16–18-year-old apprentices.

For anyone who employs an apprentice over the age of 19, employers are required to pay 5% of the total apprenticeship programme funding towards the cost of this training.

Employers with a payroll of less than £3million per annum and 50 or more employees will pay 5% of the total apprenticeship programme funding towards the cost of training apprentices of all ages.

Recruitment

Details of apprenticeship vacancies can be found on the National Apprenticeship Service (NAS) website, College website and are also posted on our social media platforms, as well as being sent to schools and shared with existing college students.

Employers can also recruit apprentices directly, but need to get in touch with us to complete the recruitment process

Apprentices can also be current employees who wish to improve or enhance their skills.

Recruitment process:

1. Employer completes a vacancy description form
2. The Apprenticeship team will post the vacancy on the National Apprenticeship Service and College website
3. The Apprenticeship Team will check the candidates eligibility for funding for apprenticeship programmes in England
4. Employer interviews candidates for job suitability
5. Candidates are invited in for individual assessment (maths and English) and programme suitability

Brunel Motors

“Apprentices are helping every industry grow, not just the motor trade.”

Andy Trollope is the owner of independent car garage, Brunel Motors in Salisbury. He began his career with an apprenticeship back in 1988 at Salisbury College so has a long-standing relationship with WCUC. In fact, his staff members and pretty much everyone he knows in the trade went to Salisbury College.

He finds himself returning to the skills that he learnt over 30 years ago, such as equations. Andy believes those skills were the building blocks for his success and are definitely skills for life, helping him get to where he is today.

Andy believes apprenticeships are essential if you want to grow and make plans for the future because you're getting on-the-job learning along with classroom learning and off-the-job training.

When discussing apprenticeships, Andy went on to say, "There is a fundamental lack of vehicle technicians out there and there is going a big lack in 10 or 15 years' time so now is the time for training and investing in the future." He only takes on apprentices on at certain times in the business. Always with the thought in mind of being able to offer a job at the end of their apprenticeship programme. Commenting on this whole process, Andy said, "It's helping my business to grow and they're being trained how we want them to be trained in the workshop and how they should be trained in the classroom."

We have apprenticeships available in...

Wiltshire College & University Centre currently offers over 60 different apprenticeships. Apprenticeships are becoming increasingly more specialised with pathways designed to suit specific job roles within a business and meet employers needs.

Agriculture and Environmental

Arborist	Level 2
Countryside Worker	Level 2
General Farm Worker	Level 2
Horticulture and Landscape Operative	Level 2
Land-based Service Engineer	Level 2
Sports Turf Operative	Level 2
Land-based Service Engineering Technician	Level 3
Landscape/Horticulture Supervisor	Level 3
Livestock Unit Technician	Level 3

Business and Administration

Customer Service Practitioner	Level 2
Business Administrator	Level 3
Customer Service Specialist	Level 3
HR Support	Level 3
Team Leader/Supervisor	Level 3
Associate Project Manager	Level 4
Chartered Manager	Level 4-6
HR Consultant/Partner	Level 5
Operations/Departmental Manager	Level 5
Senior Leader	Level 7

Catering and Hospitality

Commis Chef	Level 2
Hospitality Team Member	Level 2
Production Chef	Level 2
Chef De Partie	Level 3
Hospitality Supervisor	Level 3

Construction

Carpentry and Joinery	Level 2
Civil Engineering Technician	Level 3
Groundworker	Level 2
Painter and Decorator	Level 2
Property Maintenance Operative	Level 2
Advanced Carpentry and Joinery	Level 3
Installation Electrician/ Maintenance Electrician	Level 3
Plumbing and Domestic Heating Technician	Level 3

Education and Childcare

Early Years Practitioner	Level 2
Early Years Educator	Level 3
Teaching Assistant	Level 3

Legal, Finance and Accounting

Accounts/Finance Assistant	Level 2
Assistant Accountant	Level 3
Professional Accounting/ Taxation Technician	Level 4

Hair

Barbering Professional	Level 2
Hair Professional	Level 2
Advanced and Creative Hair Professional	Level 3

Health and Care Services

Adult Care Worker	Level 2
Healthcare Support Worker	Level 2
Lead Adult Care Worker	Level 3
Senior Healthcare Support Worker	Level 3
Children, Young People and Families Practitioner	Level 4
Lead Practitioner in Adult Care	Level 4
Children, Young People and Families Manager	Level 5
Leader in Adult Care	Level 5

Engineering and Manufacturing

Autocare Technician	Level 2
General Welder	Level 2
Design and Draughtsperson	Level 3
Engineering Fitter	Level 3
Engineering Technician	Level 3
Maintenance and Operations Engineering Technician	Level 3
Motor Vehicle Service and Maintenance Technician (Light Vehicle)	Level 3
Plate Welder	Level 3
Engineering Manufacturing Technician	Level 4

IT

Information Communications Technician	Level 3
Network Engineer	Level 4
