

Having a X-Ray

An easy read guide

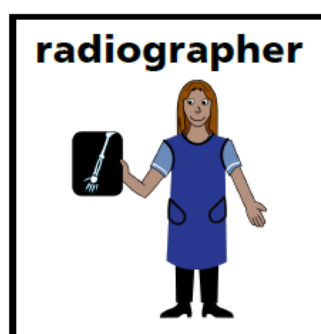

**Easy
Read**

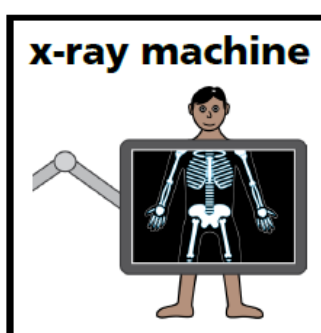

This booklet uses easy words and pictures.
You might want to ask someone to help you read it

This booklet is about having an x-ray.
An x-ray is where they can take a picture that can see inside your body

The x-ray staff are called radiographers.
They will help you and tell you what you need to do

There is a machine in the x-ray room that takes the pictures of your body

The x-ray scan does not hurt

You need to stay very still when they take the picture

Then your x-ray is done.
The staff will tell you what to do next

Please bring your hospital passport with you if you have one
