

Having an Ultrasound injection

An easy read guide

This booklet uses easy words and pictures.
You might want to ask someone to help you read it

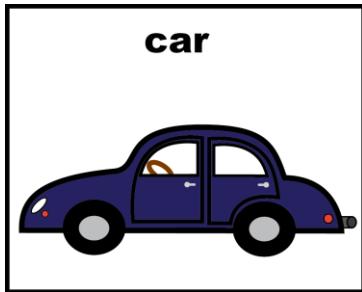

Your doctor has said you need an ultrasound scan

The scan will involve an injection

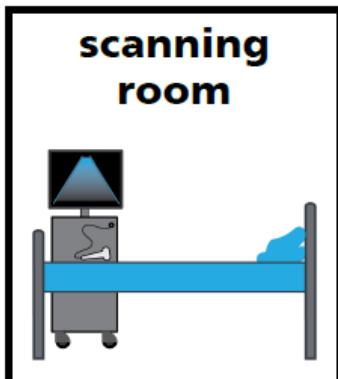

You may be asked to stop taking some of your medication

car

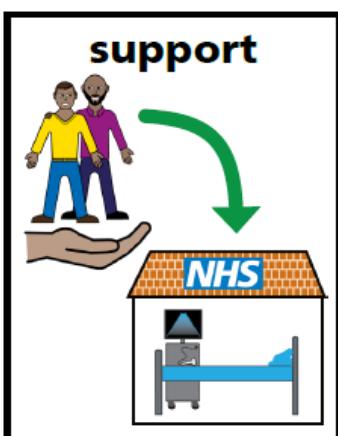

You won't be able to drive after your appointment.

Please arrange a driver

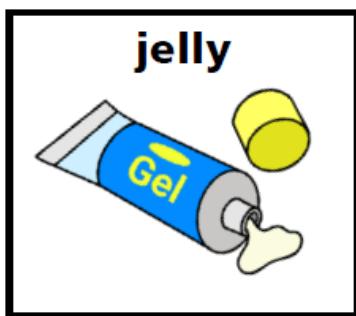

scanning room

You will go into a room with the scanning machine.

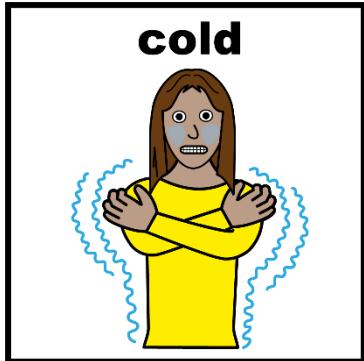

support

You can take someone in with you for support.

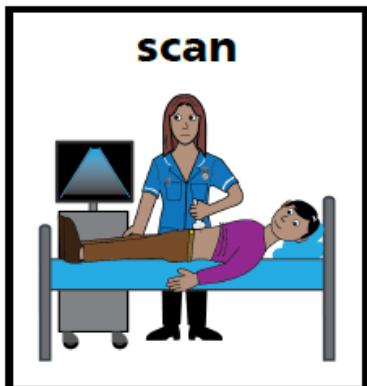

jelly

They will put some jelly on your skin where they want to scan.

This may feel cold.

They will then put the scanning probe over your skin.

After the doctor has found the right place, you will have the injection.

The injection will cause a little pain

Let the staff know if you're uncomfortable

When your scan is complete the staff will tell you what to do next

Please bring your hospital passport with you if you have one
