A NEW WAY OF THINKING

**Sulis Hospital is one of the first private hospitals
in the UK 100% owned by an NHS Trust.**

Sulis Hospital's private patient care model benefits all. Additional revenue, generated through the care of private patients, is reinvested in high-quality services for all patients through The Royal United Hospital Bath NHS Foundation Trust.

Sulis Hospital has an atmosphere that combines the simplicity and beauty of a modern, well-equipped hospital with a relaxing environment to help you feel at ease and recover quickly.

The hospital was purpose-designed through a true collaboration between world-renowned architects Foster & Partners and the founding doctors who combined their experience in NHS and private practice to create a healing environment for patients.

CARING FOR YOU

Arriving at hospital can be a daunting experience. Whether it's our experienced nurses, convenient appointment times, or free car parking we will take the hassle away. You can be certain of a friendly smile, no queues, and the individual care and attention you'd expect from a private hospital environment.

You're in safe hands in our covid-secure hospital. Our team take patient safety and infection protection seriously. We are proud of our zero-incident track record on hospital-acquired infections MRSA and C.difficile.

Rated outstanding for caring by the CQC, our purpose is to improve our patient's lives by providing high-quality care.

BENEFITS OF CHOOSING PRIVATE HEALTHCARE

- Fast access to diagnosis and treatment with leading experts.
- Expert multidisciplinary teams to care for you.
- High-quality care personalised to your needs.
- Appointment dates and times to fit around your schedule.
- Consistent care with the same dedicated healthcare team throughout your journey.
- Accessible treatments with payment options to suit you.
- Comfortable and safe private facilities in a world-class hospital.

FAST ACCESS TO PRIVATE HEALTHCARE

You can pay for your treatment privately if you do not have private medical insurance, and you do not always need a referral from your GP. Your consultant will, with your permission, write to your GP following your consultation.

Your private medical insurance is there when you need it most and it may cover more than you expect.

Our patient advisory team is based at the hospital and can provide guide prices and help you access private healthcare.
