

Speech Intelligibility Rating (SIR)

Name:

Date:

	Criteria	Tick Achieved
5	Connected speech is intelligible to all listeners. Child is understood easily in everyday contexts.	
4	Connected speech is intelligible to a listener who has little experience of a deaf person's speech.	
3	Connected speech is intelligible to a listener who concentrates and lipreads.	
2	Connected speech is unintelligible. Intelligible speech is developing in single words when context and lipreading clues are available.	
1	Connected speech is unintelligible. Pre-recognisable words in spoken language.
