

IBD BENCHMARKING TOOL 2019/2020 RESULTS OVERVIEW

BARNESLEY HOSPITAL

www.ibduk.org

This report shows results from the IBD Benchmarking Tool 2019/2020, a new way to assess how well services across the UK are providing care against the IBD Standards 2019. It includes information from a self-assessment completed by the IBD Team and from an IBD Patient Survey completed by 28 patients who use this service. This report has been produced by IBD UK, a partnership of patient and professional organisations working together for everyone affected by IBD.

Key

IBD Patient Survey 2019

IBD Service Self-Assessment 2019/2020

The Service in Numbers

Covers a population of

250,000

Supports

1,400

adult IBD patients

Of which

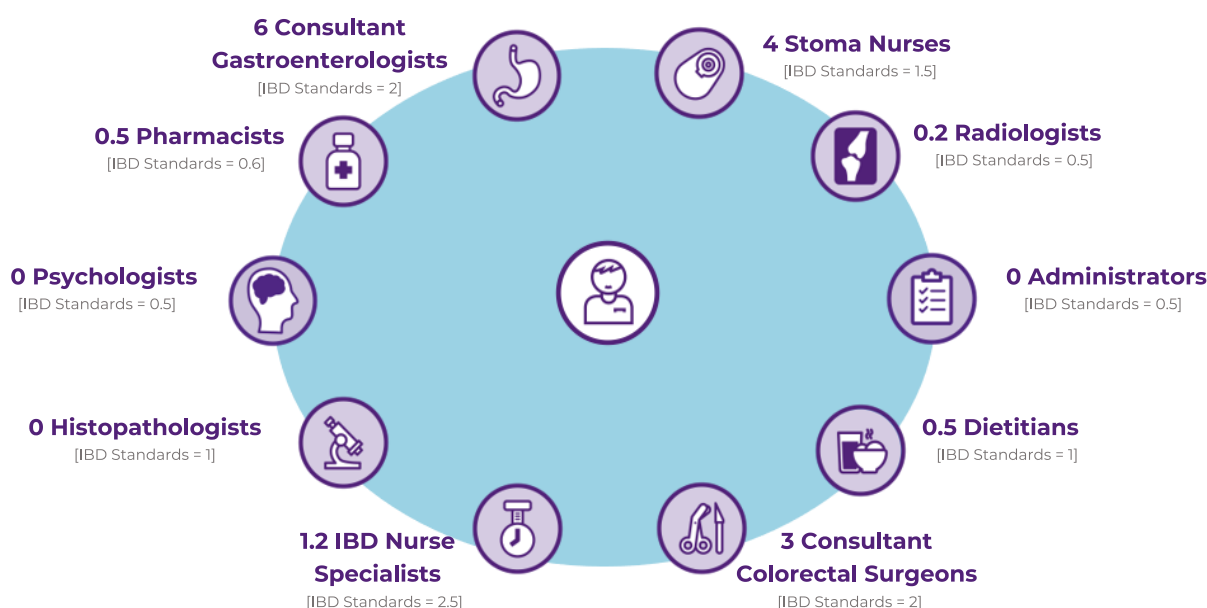

30

were diagnosed in the past 12 months

The IBD Team

The IBD Standards define the ideal make-up of the IBD team in terms of full-time roles. Shown below are the actual numbers for this IBD team, with ideal numbers based on population size in brackets beneath.

Quality of Care

Overall, how would you rate the quality of your Crohn's or Colitis care over the last 12 months? [27 responses for this service]

Rated as "Excellent" or "Very good" by 33% of patients

Rated as "Fair" or "Poor" by 41% of patients

Rated as "Good" by 26% of patients

We acknowledge there is room for improvement according to the report. On reflection, we have been copying all patients in the outpatients' clinic letters along with IBD MDT outcomes. An action plan 2020-2021 will be to appraise our patients' satisfaction with our IBD services and establish an audit plan to comply with UK IBD Standards.
