

# IBD BENCHMARKING TOOL 2019/2020 RESULTS OVERVIEW

GREAT ORMOND STREET HOSPITAL

[www.ibduk.org](http://www.ibduk.org)

This report shows results from the IBD Benchmarking Tool 2019/2020, a new way to assess how well services across the UK are providing care against the IBD Standards 2019. It includes information from a self-assessment completed by the IBD Team. Unfortunately, no information can be included from the IBD Patient Survey due to insufficient numbers of patients responding who use this service. This report has been produced by IBD UK, a partnership of patient and professional organisations working together for everyone affected by IBD.

Key

IBD Patient Survey 2019

IBD Service Self-Assessment 2019/2020

## The Service in Numbers

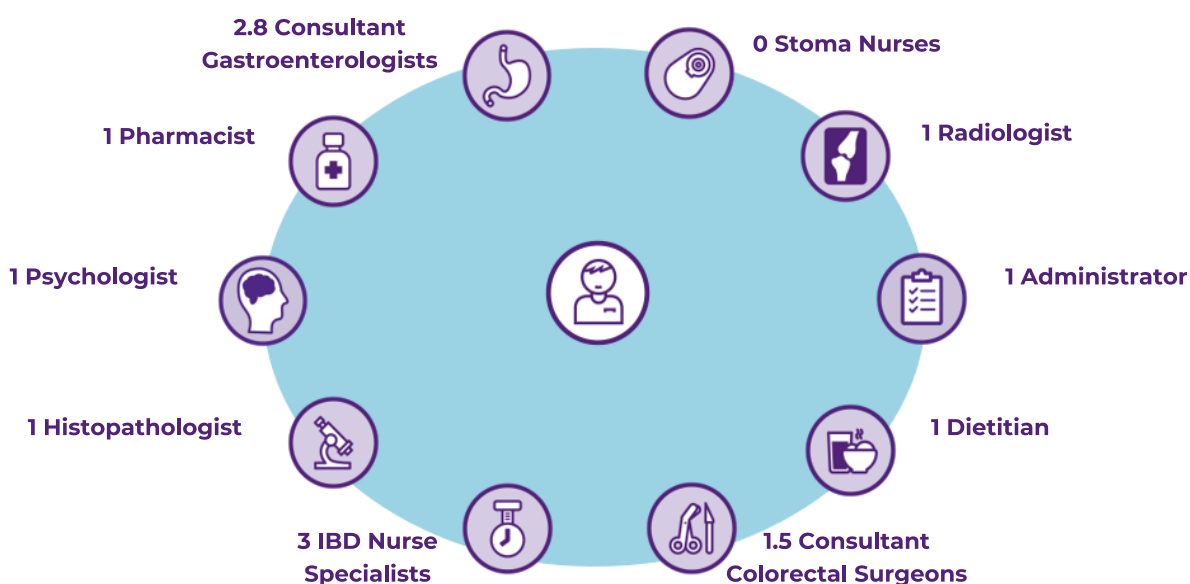

Covers a population of  
**2,000,000**

Supports  
**200**  
paediatric IBD  
patients

Of which  
**30**  
were diagnosed in the  
past 12 months

## The IBD Team

## Quality of Care

Overall, how would you rate the quality of your Crohn's or Colitis care over the last 12 months?

Unfortunately, no information can be included here due to insufficient numbers of patients (less than 5) responding to the IBD Patient Survey for this service.

These results have been made publicly available to support clinicians, patients and commissioners to improve quality of care for IBD patients. Thank you to everyone who responded to the IBD Patient Survey 2019. The next IBD Patient Survey will run in 2021.
