

**Advancing  
Open Science**

**Increasing the visibility  
of scientific research  
since 1996**

MDPI is a publisher  
of fully peer-reviewed,  
open access journals  
with a focus on robust  
and rapid editorial  
processes.

Our aim is to ensure that high-quality research is verified and made available to the research community as quickly as possible.

MDPI stands at the forefront of the open access movement, having launched its first online journal *Molecules* in 1996.

Today, MDPI is a leader in open access publishing with over 500 journals across all research disciplines. Every article is published under a Creative Commons Attribution (CC BY) license, ensuring unrestricted access and reuse for researchers worldwide.

# About MDPI

669.1 K

submissions received in 2025

500+

open access journals

18 days

from submission to first decision  
in 2025 (median across all journals)

43 days

from submission to publication in 2025  
(median across all journals)

93%

of submitting authors rate their  
overall experience with the peer  
review process as Excellent/Good

261.6 K

articles published in 2025

journals covered in SCIE  
(Web of Science)

# Our Guiding Principles

## Community

The academic community is at the center of what we do. We listen to feedback from the community and work together to meet their changing needs.

## Transparency

Our practices are transparent, from open peer review to data sharing, making science more trusted and research more replicable.

## Open Access

Our content is open access and distributed under a Creative Commons License, providing free access to knowledge, enabling research findings to be freely shared and content to be re-used with attribution.

## Responsiveness

Our fast and efficient processes provide scientists with the convenience they need to quickly translate critical knowledge into positive societal impact.

## Quality

We form an integral pillar of academic integrity, uphold high ethical standards and join in the industry-wide efforts to fight fraud in a transparent and fair way.

## Innovation

We remain at the forefront of academic innovation, empowering open scientific exchange in all forms and across all research disciplines.

# Publication by Subject Area

# MDPI Services for Scholars

Sciforum is an event management platform that supports open science by offering the opportunity to participate in, as well as to organize, academic conferences.

[sciforum.net](https://sciforum.net)

MDPI Books offers quality open access book publishing to promote the exchange of ideas and knowledge across all disciplines.

[mdpi.com/books](https://mdpi.com/books)

Preprints is a multidisciplinary preprint platform that makes scientific manuscripts from all fields of research immediately citable and permanently available for everyone.

[preprints.org](https://preprints.org)

Scilit is a centralized platform for all published research literature.

[scilit.net](https://scilit.net)

SciProfiles is a social network platform powered by MDPI for researchers across the globe.

[sciprofiles.com](https://sciprofiles.com)

## AUTHORservices

MDPI offers fast, professional author services to enhance the clarity and impact of the research. Services include language editing, figure and table editing, and graphical and video abstracts.

[mdpi.com/authors/english](https://mdpi.com/authors/english)

## Encyclopedia

Encyclopedia is a user-generated content hub aiming to provide a comprehensive record for scientific developments and publish the latest research results.

[encyclopedia.pub](https://encyclopedia.pub)

JAMS is a flexible publishing platform designed to help scholarly journals grow and thrive. Our end-to-end solution covers everything from submission management to production services, adapting to your unique workflow needs.

[jams.pub](https://jams.pub)

MDPI publishes a series of open access conference journals in all research fields. These journals provide a high quality service and are dedicated to making the output of conferences widely available.
