

# SECURITY AWARENESS CALL

## GAIN AN UNDERSTANDING OF TODAY'S THREAT LANDSCAPE

At Tectrade, we understand the high level of importance associated with protecting information and access to critical workloads. As such, we want to make sure our clients are kept up to date on capabilities and approaches that can help protect their IT environment.

In partnership with Alert Logic, we are offering clients a free 30-minute Security Awareness Call with your Tectrade Client Director and a Security Specialist, to provide you with an educational overview of the top security concerns facing companies today. During this two-way discussion, you'll have an opportunity to ask security and compliance related questions, and receive feedback unique to your situation.

### Why book a Security Awareness Call with Tectrade & Alert Logic?

- Get clarity on the shared security responsibility model
- Learn about top trends impacting the security market
- Understand how other organizations are approaching security

### How mature is your current IT security posture?

- Security breaches have increased by 11% since 2018 and 67% since 2014.
- 69% of organizations don't believe the threats they're seeing can be blocked by anti-virus software.
- 4 out of 10 businesses reported having cyber security breaches or attacks in the last 12 months.

### Key Topics Covered:

The Security Maturity Journey  
Today's Cyber Threat Landscape  
Security in a Hybrid Cloud Environment  
Risk vs. Investment to Protect

### Expected outcomes from the Call

- An understanding of the current threat landscape, relevant to your industry and circumstances.
- Awareness of security concepts you can use to manage your IT security program.
- Feedback on security options that can enhance your company's security maturity and posture.
