

# Security Requirements for Fishing Equipment

You must adhere to the following security requirements otherwise your insurance may be invalid and we may reject a claim:

## House / Apartment / Fishing Venue

- Brick, concrete or stone private house of standard construction with a slate, tiled or multi-layered roof.
- A self-contained apartment within the above.
- Where you participate in fishing at a recognised venue.

The fishing equipment, personal belongings, fishing clothes, gadgets, mobile phones and fishing technology must be kept inside with security devices in operation.

## Night Fishing

The fishing equipment, personal belongings, fishing clothes, gadgets, mobile phones and fishing technology must be attended at all times by an adult who is responsible for its safekeeping.

## Private Garage / Shed / Outbuilding

- Privately accessed garage, wooden or metal shed within the boundaries of your home address.
- Brick, concrete or stone outbuilding of standard construction with a slate, tiled, corrugated steel, asbestos or multi-layered roof within the boundaries of your home address.

External doors must be secured by a 5 lever mortise deadlock or a 5 lever padlock.

## Unattended Vehicle between 6am and 9pm

- All doors, windows and other openings of the vehicle are left closed, securely locked and fastened; AND
- Any security devices installed in the vehicle are in operation; AND
