

Trendlines 2019 Year-End Results: Portfolio Value up to Record Level of US\$102.8 Million

Misgav, Israel and Singapore, 24 February 2020 – The Trendlines Group Ltd. (the “**Company**” and together with its subsidiaries, “**Trendlines**” or the “**Group**”), the Israel- and Singapore-based investment and innovation commercialization company focused on building value through early-stage, high growth, innovation-based medical and agrifood technologies, announced its results for the financial year ended 31 December 2019 (“**FY2019**”) today.

- Total current assets: US\$19.5 million (31.12.2018: US\$11.8 million)
- Net loss: US\$0.7 million (FY2018: Net loss US\$6.3 million)
- Book value of US\$99.8 million as at 31.12.19 (31.12.2018: US\$86.4 million)

2019 Financial Results

The fair value of the Group’s portfolio as at 31 December 2019 was US\$102.8 million, which is an increase of 5.8% compared to the fair value of the Group’s portfolio of US\$97.2 million as at 31 December 2018; and an increase of US\$20.8 million compared to the US\$82.0 million value as at 30 June 2015 per the Company’s offer document dated 16 November 2015.

The gain in fair value of investments in portfolio companies was US\$3.8 million in FY2019 as compared to a loss of US\$6.0 million in FY2018, a US\$9.8 million improvement, mainly due to an aggregate net increase of US\$18.2 million in the overall fair value of various Portfolio Companies which was derived based on factors such as the terms on which each Portfolio Company completed its fund raising exercises, each Portfolio Company’s commercial or technological progress and the fair value of a Portfolio Company based on advanced negotiations with a potential acquirer. In general, favorable terms for fund raising exercises/exits and higher commercial or technological progress would lead to higher fair values.

This gain was partially offset by three main factors: (1) an aggregate net decrease of US\$5.7 million in the fair value of Stimatix GI Ltd. (“Stimatix”) due to initial revenues of Stimatix being below previous projections arising from the product’s staggered launch, despite B. Braun’s launch of the Stimatix product remaining on track; (2) a decrease of approximately US\$5.3 million in the fair value of various portfolio companies mainly as a result of the completion of fund-raising exercises at less favorable terms to the Company, and general

commercial or technological difficulties demonstrated in some portfolio companies; and (3) the write-off of three portfolio companies of approximately US\$3.4 million.

Current assets were US\$19.5 million as at 31 December 2019, compared to US\$11.8 million as at 31 December 2018. Cash and cash equivalents increased by approximately US\$10.2 million mainly as a result of the 2019 Placement and the 2019 Rights Issue, which injected approximately US\$8.0 million and US\$6.0 million respectively in the Company, offset by the utilization of cash for investments and operating activities in FY2019.

The net assets of the Group as at 31 December 2019 was US\$99.8 million compared to US\$ 86.4 million as at 31 December 2018. The net assets of the Group have increased by 59.1% since the Company's listing in 2015, when the net assets of the Group were US\$62.7 million as at 30 June 2015.
