

# Sea/contracts

A smarter way to create & manage contracts.

## Keep focus

A range of features to help you manage document updates and control approval.

## Save time

Work more efficiently with digitized process from start to finish.

## Save costs

Avoid costly couriers with electronic signatures. Time savings create cost efficiencies.

## Stay compliant

Risky clauses are flagged whilst control tools ensure risk is mitigated.

**Embedded** with over **5,000** charterers, owners and brokers.

- All parties working from one system, in the same way.
- Track charter party and document changes with ease.
- Set up and manage notifications, within the browser app and on email.
- Manage addenda and attachments in one place.
- Control approvals at addenda and Charter Party level.
- Online – Web app, available anywhere with an Internet connection.

24/5  
support

Anytime,  
anywhere.

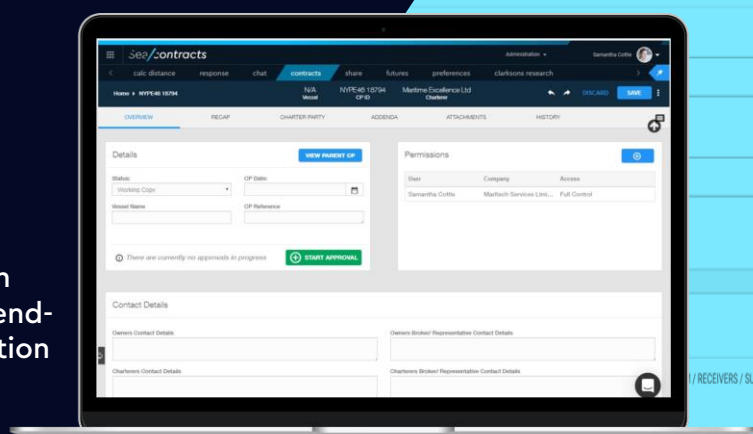

Part of an  
integrated end-  
to-end solution
