MATTIAZZI
ITALY

MATERIAL

Ash or oak of European origin and legal wood cutting (controlled deforestation). Iroko of African origin.

MAINTENANCE

It is suggested to clean the product with a soft and damp or with specific detergents for furniture. Do not use abrasive sponges or other materials potentially aggressive. Do not use acid products, solvents or products containing ammonia. In order to preserve the color of the iroko wood for outdoor use and to avoid that the surface turns gray, we advise you to use occasionally some oil for outdoor furniture. This maintenance is necessary to avoid the micro-cracks of the wood caused by environmental influences, which do not compromise the stability of the product. It is suggested to use Clerici in areas protected from sun and rain during outdoor use. Iroko frames have to be treated regularly with oil for outdoor furniture. Suggested oil: Auro Natural Paints – Terrace oil, Teak n. 110 - 81.

WARNINGS

Avoid to stand on the seat/top of the product.
Avoid to use the product as ladder.
Avoid to rock the product when sitting.
Avoid to stand on the raised parts.
Avoid any other improper use not in compliance with the proper one.

RECOVERY START

At the end of its use, the product can be destined to the recovery according to the ordinary channels.
