## Government

### Major UK law enforcement agency gains high performance application availability solution

Highly tuned Citrix NetScaler solution by Xtravirt ensures maximum performance and reliability

#### Challenge

- Implement solution capable of achieving high performance application availability
- Support staff across a wide geographic area
- Achieve optimum efficiency of back-end server infrastructure

#### Solution

- Design and build a virtual load balancing solution using Citrix® NetScaler®
- Apply Citrix NetScaler VPX appliances where deployed on VMware vSphere®
- High availability clustered NetScaler appliances per site
- Integrate local and global load balancing

#### Result

- **Application access resilience** across business with addition of application load balancing
- **Secure centralised user access** through consistent solution
- **Maximised server usage** due to successful deployment of Citrix NetScaler and streamlining of user access

# POLICE

#### Customer

This major UK law enforcement agency is responsible for serving a region of over 2.5 million people.

Xtravirt is a leading, independent provider of enterprise virtualisation solutions. We deliver data centre, workspace and cloud transformational solutions to clients across public and private sectors, both in the UK and internationally.
