Healthcare

Global diagnostic laboratory leader optimises desktop and application delivery

Scalable implementation of Citrix XenApp and XenDesktop solution results in acceleration of business service deployment by 50%

Challenge

- Provide applications and desktops across multiple data centres in multiple locations with centralised management
- Ensure a consistent and streamlined managed application experience for all users
- Simplified and enhanced authentication for all users across the entire solution
- Scalable solution capable of supporting 5,000 staff across multiple locations

Solution

- Citrix XenApp and XenDesktop implemented and Citrix Workspace Environment Manager utilised for user persona management
- Citrix AppDisks installed, used for application installation and management
- Microsoft Active Directory, Zerto Virtual Replication, CommVault Backup and Recovery along with VMware vRealize Operations designed and implemented to provide a robust and scalable end to end solution

Result

- **Delivery time accelerated by 50%** for implementation services
- **Successful roll out of modern and scalable application** and desktop platform
- **Fully centralised model** delivering streamlined multi-site management

Customer

Established in 1979, this renowned Laboratory Information Systems provides market-leading diagnostic information technology to over 1,700 laboratories internationally, supporting and fulfilling the requirements of today's leading healthcare providers.

Xtravirt is a leading, independent provider of enterprise virtualisation solutions. We deliver data centre, workspace and cloud transformational solutions to clients across public and private sectors, both in the UK and internationally.
