

YOUR GAS METER DISPLAY GUIDE

ENERGY

The most useful displays can be found below, these may vary depending on the type of meter you have.

Display Number	What this means
00	How much credit you last put on your meter
01	How much of your last top up was put towards any outstanding debt on your meter
02	How much of your last top up was used to repay any emergency credit you've used
03	How much of your last top up has gone onto your gas supply

The amounts from displays 01, 02 and 03 will add up to the amount shown in display 00.

10	Price per unit of gas
17	Daily standing charge - collected 2am daily

For the following displays, you'll need to have your card in your meter.

25	Minimum debt repayment that will be taken in a week
26	Maximum debt repayment that will be taken in a week
27	The amount of debt to be repaid. This will decrease each week if you add enough credit to your meter
